COURSE CODE: CPS_1

Collaborative problem solving for community safety

<https://www.open.edu/openlearn/money-business/collaborative-problem-solving-community-safety/content-section-overview>

Course summary

This free course, Collaborative problem solving for community safety, offers a range of techniques for community police officers, other community-based public service professionals and members of community groups working to solve problems collaboratively and creatively. It examines some of the ways which OU specialists in creative problem solving recommend to tackle difficult problems, and how to implement them in a community setting.

Learning outcomes

By completing this course, the learner should be able to:

- implement a variety of skills and techniques aimed at improving collaborative working and decision-making with community members and partners
- understand the role of all stakeholders in delivering effective solutions to local community safety problems.

Completed study

The learner has completed the following:

Week 1

Observation and experience

Week 2

Understanding community relationships

Quiz (score 88%)

Week 3

Communicating in your community

Week 4

Problem solving and decision making

Quiz (score 100%)
